

Figure S1. Differential expression of CD163/CD68⁺ ratio in TC and TF, and their prognostic significance in CRC. A. Differential expression of CD163/CD68⁺ ratio in TC and TF. B-C. ROC analysis of the expression of CD163/CD68⁺ ratio in TC and TF, respectively. D-E. CD163/CD68⁺_{TC} ratio and the patients' recurrence-free survival and overall survival in CRC, respectively. F-G. CD163/CD68⁺_{TF} ratio and the patients' recurrence-free survival and overall survival in CRC, respectively. Notes: *** represents *P*<0.001. Abbreviation: CRC, colorectal cancer; TC, tumor center; TF, tumor invasive front; ROC, receiver operating characteristic; AUC, area under curve; CI, confidence interval.
