**Figure S1.** Wnt5a does not directly influence CRC cells and macrophage recruitment. **A** ELISA analysis of Wnt5a secretion level in M0 macrophages and TAMs. Error bars, SEM. **B** Cell viability of HCT116 or DLD-1 cells treated with Wnt5a. Error bars, SEM. **C** Transwell migration assay of HCT116 and DLD-1 cells treated with Wnt5a. (magnification, ×100). **D** Quantification analysis of migratory cells in five fields was counted manually. Error bars, SEM. **E** Chemotaxis analysis of THP-1 macrophages toward Wnt5a. (magnification, ×100). **F** Quantification analysis of chemotactic cells in five fields was counted manually. Error bars, SEM. ns, not significant. \*\*\*P<0.001
